Weather permitting, Tuesday, March 22<sup>nd</sup> at 8:00 a.m. through Tuesday, April 12<sup>th</sup> at 5:00 p.m., H & H Plumbing and Utilities, Inc. will be closing 48<sup>th</sup> Avenue NW to through traffic between Saddleback Boulevard and Rock Creek Road and between Rock Creek Road and Tecumseh Road. The purpose of this road closure is traffic safety during the installation of a new sanitary sewer pipeline to serve a new residential subdivision called Fountain View Addition. Rock Creek Road will remain open to traffic throughout the project. On or about April 12<sup>th</sup>, the section of 48<sup>th</sup> Avenue NW south of Rock Creek Road will reopened. Also on April 12, 2011, the closed section north of Rock Creek Road will advance northerly in an incrementally manner over subsequent weeks. Updated information will be provided at that time. The soil type, proximity of pipeline to the roadway and depth of the excavation were all factors that contributed to this extended road closure and the required enhancement of traffic safety. Traffic control signage and barricades will be provided to direct the traveling public. Thank you for your patience.
